

All you need to know about COVID vaccine safety

Steve Kirsch

Executive Director

COVID-19 Early Treatment Fund

stk@treatearly.org

Oct 19, 2021

I AM THE
“INCONVENIENT TRUTH”
TELLER

(because I know how to properly interpret the VAERS
data)

**Nobody is paying
attention
to the elephant in the
room**

(FDA meeting, Sept 17)

The vaccines are
killing more people
than they are saving

Killed: 150K¹
Saved: 10K²

¹[Estimating the number of vaccine deaths](#) computes over 150K excess deaths due to the COVID vaccines 8 different ways.

²[Pfizer's 6 month phase 3 trials result](#) clearly shows 1 life saved for every 22,000 vaccinations. Since we've [partially vaccinated almost 220M Americans](#), that's at most 10,000 lives saved as of Oct 10, 2021. But that's assuming the vaccines are as effective against Delta as they are against Alpha. So it's probably much less than 10,000 lives saved.

3 stopping conditions have already been met

1. # killed > # saved
2. >150K killed
3. >300K permanently disabled

Sources:

1. [COVID cost-benefit by age computation](#)
2. [Estimating the number of vaccine deaths](#)
3. [OpenVAERS](#) says 8,088 permanently disabled.
[Multiply by under-reporting factor \(URF\) of 41 to get the true number of cases](#)

COVID VACCINES

Don't prevent infection

Don't reduce transmission

Don't keep you out of the hospital

Help you die if you get COVID

Impair your immune system

VACCINES

kill > save

for all age ranges

Age	Killed	Saved	K:S
20-30	67	11	6.1:1
30-40	121	31	3.9:1
40-50	210	76	2.8:1
50-60	436	185	2.4:1
60-70	1031	450	2.3:1
70-80	2140	1133	1.9:1
80+	6276	3458	1.8:1

Killed>Saved for all ages

The table shows the Killed by vaccine:Saved from COVID death in 6 months numbers. Units for both columns are per million doses.

You can [read this article](#) which details how all these numbers were calculated.

For kids, we kill over 6 kids to save 1 kid from a COVID death. Mandating vaccination for anyone, especially school-age children, is proof of a corrupt society.

Bottom line: It is nonsensical to vaccinate any age group.

Taiwan: Vaccines kill > COVID

Anabel V. @Anabel_Villeroy · 27m

Replying to [@stkirsch](#)

The CDC is conveniently trying to hide vaccine-induced mortality data. Taiwan is not.

Anabel V. @Anabel_Villeroy · 49m

More die after  in Taiwan than from C19 itself.

Looks like Taiwan is recording vaccine deaths properly – unlike the US where you are not considered vaccinated until 14 days post-inoculation.

A convenient way for the CDC to hide vaccine-induced mortality data.

NOBODY

should get vaccinated

All of these
were and are
completely
UNNECESSARY

Vaccines

Boosters

Lock-downs

Business closures / slowdowns

Loss of income

Economic destruction

Social distancing

Mask wearing / kids sick from masks

Weekly testing of unvaccinated

Testing of non-symptomatic people

Vaccine mandates

Must be vaccinated to dine indoors

The “unexpected” deaths (cardiac arrest)

The disabilities

The FEAR

EARLY TREATMENTS

Safer, more effective, ...

Early treatment benefits

No masking

No social distancing

No more lockdowns

No more mandates

Broader immunity

Herd immunity

Early treatment benefits

1. Higher relative risk reduction for all variants (over 99%)
2. Simple prophylaxis protocols be used to prevent infection with up to 100% success without the use of any drugs whatsoever
3. Greater safety (minor temporary side effects, known safety profile)
4. They lower both all-cause mortality and all-cause morbidity
5. They work equally well on all variants
6. They do not promote escape variants
7. They do not cause vaccine enhanced infectivity/replication
8. They do not risk original antigenic sin (linked-epitope suppression)
9. They do not cause prion diseases
10. They prevent long-haul COVID syndrome nearly 100% of the time
11. They enable people to acquire recovered immunity which is up to 27X stronger and more durable than vaccine-induced immunity

THE PUBLIC WANTS A DEBATE ASAP ... but the CDC and FDA refuse

and both outside committees [refuse to defend the CDC claims that the vaccines are safe.](#)

Steve Kirsch  @stkirsch

3d · 

Should members of the VRBPAC and ACIP committees (these are the FDA and CDC vaccine committees respectively) **engage in a public debate** with our scientific team (listed at the end of skirsch.com/covid/Refuse.pdf) **on vaccine safety** to explore the question of whether the vaccines kill more people than they save and the number of Americans killed so far by these vaccines?

Yes, let's have an open discussion ASAP	100%
No, this is inappropriate. It should be done via the published literature in slow motion	0%

NOBODY WILL DEBATE US ON THE SCIENCE

You have to attack the data
or methodology.

They have done neither.

Just ad hominem attacks.

Censorship required

The methods the US government uses to suppress the truth includes spreading misinformation, intimidation, mandates, and censorship.

Our government is deliberately ignoring early treatments; they tell everyone that early treatment don't work. They demonize the key treatment used by India to be COVID-free. Their agenda is to push the vaccine, not to cure COVID.

Social media companies will censor, demonetize, and/or ban you for telling the truth. If you are a doctor, you can have your license revoked if you say the vaccines are unsafe. This way, the public "believes" that the vaccines are safe since no doctor is speaking out against it.

Challenge to the Scientific Community – It's Time for Honest and Open Debate on Vaccine Safety

TrialSite has published articles that counter the mainstream narrative promoted by the CDC, NIH, and the US government. While we have been criticized, we believe that transparent and open debate is the best way to uncover the risks as well as the benefits. The authors we have presented on TrialSite are experts in their fields with decades of experience and impeccable credentials. Silencing scientists and physicians with smear campaigns, bans, and threats strikes us as Un-American, and contrary to the public interest.

JUST DO ONE
THING:
FORCE THEM TO
THE DEBATE
TABLE
