### Data justifying the claims I made on Fox News on Aug 10

Fox News says they "can't verify" the extraordinary claims I made on air. Can't or won't? I offered to supply the data, but they just ignored me. So did Media Matters, the CDC and the FDA.

On August 10, 2022, the Silicon Valley tech entrepreneur, and the now-Executive Director of Vaccine Safety Research Foundation (VSRF), appeared on Fox News' Tucker Carlson Tonight. Kirsch made a number of claims that are well-documented among those of us who follow mRNA vaccine safety issues, but that may have been alarming surprises to a general audience.

Why were ICUs filled with the vaccinated?

Because **you are considered unvaxxed until 2 weeks after your second shot.**

So many of the deaths from the vaccinated are blamed on the unvaxxed.

Do you know of any anecdotes where the vaxxed are BETTER OFF on **ALL CAUSE morbidity and mortality** vs. unvaxxed? All my data shows the vaccines are a disaster w.r.t. ALL cause outcomes. Got a counter example?

# VAERS: Can you spot the unsafe vaccine? The CDC can't!

**Not over-reporting!** The **only** vaxxes elevated are the COVID vaccines!

# VAERS: Estimating the number dead

1. 13,972 deaths in US
2. Subtract 1,000 for “background deaths”
3. 12,972 “excess” deaths
4. Assume 10% were COVID deaths (it’s waaaay less than that: look at the records)
5.  $11,674 * 41 = \mathbf{478K \text{ unexplained excess deaths}}$
6. This is conservative. 41 is URF for anaphylaxis per [JAMA paper](#). Anaphylaxis is “best case reporting.”
7. Methodology described [here](#); based on [CDC paper](#).
8. Other URF values: 31 (Rose), 50 (Siri), ...

# Attacks vs. Reality

## 1. “Dumpster diving”

VAERS is used whenever it supports the narrative

## 2. You don't know how to interpret it

Gaslighting doesn't work. They are camera shy.

## 3. It's just over-reporting

Propensity to report is same. Docs seeing more events.

## 4. Correlation isn't causation

Really? Then what killed these people?

# Wayne Allyn Root's wedding

8 months post-wedding

	Unvax	Vax
N	100	100
Serious injuries	0	26
Deaths	0	7

Wayne could be unlucky. Maybe 100% were vaccinated! Maybe he got an “unlucky” Poisson distribution. So divide by 8 to be conservative. 1% avg death rate for ages 30-60. This would be 75M vaxxed \* 1% = **750,000** people killed by the vax

# My survey: 600 people

	Unvax	Vax
N	1000	1000
Serious injuries	8	211
Deaths	2	47

See [my survey](#) for details. The excess death rate is  $4.7 - .2 = 4.5\%$  due to the vaccine. This is 4.5X higher than the last slide →

**>1M** excess deaths caused by the vaccine. Normalized to N=1000

# Compare excess injury/death rates

## Ryan Cole: tests to identify a person killed by the COVID vaccine

They **never** told medical examiners to run the specialized tests that are **required** to identify the vaccine as a possible cause.

The entire pandemic was unnecessary.

We had early treatments that worked in March 2020.

**The NIH looked the other way.**

## End pandemic instantly

1. Sick? Stay home.
2. Antigen positive → Start early treatment
3. Hospitalized → Get FLCCC protocol
4. Reward hospitals # SAVED vs. KILLED
5. **HALT** all “mitigation” measures

The US will NEVER do this. Tacit admission of corruption.

Their solution: More vaccines. More vaccines.

# The most important single piece of advice

**Reverse** who you are taking advice from / ignoring

EXPERTS → CENSORED

Andrew Wakefield, the original vaccine truth-teller.

## You can't trust the CDC, FDA, WHO, NIH, or your doctor

1. All vaccines are bad
2. Unvaxxed kids are **10X** healthier
3. Same true w/pets
4. **No** all-cause morbidity/mortality risk/benefit post-market observational studies for any vax.
5. If you ask your doc for #4, he will give you **NOTHING**.
