

After the Israeli Ministry of Health Posted Side Effects of the Pfizer vaccine on September 30, 2021, stating that there have been just 19 adverse events out of 3.2 million doses for the booster (3<sup>rd</sup> shot), people were outraged and submitted comments about injuries and deaths they have seen in family members and friends following the shots. (In Israel, Pfizer is exclusively used.)

Screenshots taken on 10-1-21 of 300 of 10,094 comments from Israelis below. Many of these have been deleted now. The first screenshot is from the Israeli Ministry of Health, attacking misinformation and stating there are few side effects from the shots.

<https://www.facebook.com/Health.gov.il/posts/4174515529326993>

The screenshot shows a Facebook post from the official page of the Israeli Ministry of Health. The page header includes the Facebook logo, navigation icons (Home, Friends, Watch, Marketplace, Notifications), and the profile information for 'משרד הבריאות' (Ministry of Health) with the handle '@Health.gov.il - Government Organization'. A 'Send Message' button is visible. The post itself, dated 23 hours ago, contains the following text:

Let's talk about the reported side effects of receiving coronavirus vaccines. A little long but important that you read! AM; LAC - Vaccines are effective and safe, the Ministry of Health collects information about side effects systematically and crosses it with the information collected in other countries of the world and with clinical trials conducted in vaccines.

A lot of misinformation ❌ and peeled around the web, flooding the bush and causing unnecessary fear of vaccines, which are a central and important tool in the war against the virus and protecting the health and routine of all of us in the shadow of a global pandemic.

The Ministry of Health systematically monitors, monitor and collects information about the reported side effects after vaccines, and the results of this follow-up are conclusively appropriate to determine the world's leading scientific and medical bodies: the vaccines given in Israel are safe and effective, the side effects if there are often mild and fleeting.

We uploaded the full findings as a presentation to the website, and we invite you to come in, get impressed and see for yourself the gap between a discourse that is not based on data and reality. Click here: <https://www.gov.il/.../publications/reports/seav-25092021>

In short, the data is uploading:

- ✔ The third immunization dose is accompanied by a smaller rate of reported phenomena (e.g. fatigue, weakness, local pain in the injection area) compared to The number of significant phenomena observed in the third vaccine amounted to only 19 (some of them still tested for the vaccine), out of about 3.2 million vaccinated in a third vaccine.
- ✔ Cardiac infection in teenagers (Myocarditis) - As of 25.09.21, 11 cases were reported at the age of 12-15, out of 0.00043 (zero rate) are vaccinated in the first course and 255,444 (zero rate-331,538 %) get vaccinated in the second course. Hence it comes up that this is a \* very rare phenomenon \*, and it also often passes after a short time. It's important to note that the risk of miorcaditis resulting from Corona is much higher compared to the risk of the vaccine.
- ✔ Sub-report - Despite the systematic gathering of reports, the Ministry assumes that there is a sub-report of especially mild phenomena, which do not harm the routine of life and do not require medical surveillance.

In conclusion, we invite you to enter the presentation that has been uploaded to the site and argue for yourself vaccines are safe and do not drag any significant side effects (and if they

Let's really talk about the side effects - and let's start from the fact that in Israel \* there is \* no \* side effects monitoring system like in other countries of the Western world - one that allows every citizen to watch, read and understand what are the side effects that other citizens have reported, one that allows independent researchers to examine the data and see whether effects Some repeating themselves after the vaccine - a bond that must be tested to see if it is indeed causal. In Israel there is no reporting system. What is there is a \* form \* report - not a reporting system, and this form is also disabled, and until recently there wasn't even room for the details of the report, including not even the name of the report - which indicates about a thousand witnesses that you didn't have a head and you have no intention to test The reported side effects.

Let's talk about the reporting system of the nursing and motherhood protector, which was \* shut down \* in December 2020-right at the time when the vaccination operation began in the elderly and nursing homes

Let's talk about the reporting system and the culture of reporting that you rooted among the medical teams, when in most cases when a person arrives in the hospital - with chest pain, with heart attack, with blood clots, with bleeding, with abortion, with quiet birth - no one even asks him whether Resilience in the last few days.

Really, let's talk about side effects. Don't give us anything. Listen to the public. Come \* you \* get to know the data!

Let's talk....

My wife has been suffering from side effects since the day of the first vaccine. Headaches, dizziness, accelerated pulse and more...

Some of my family also suffer from phenomena.

Regulator bleeding...

A friend of a young healthy family member died of a healthy blood clot... Want to talk more? ...

A relative heart infection...

And everyone said there is no connection to the vaccine so how exactly do you collect the data?

You are simply liars!! You don't have a system that allows you to follow the side effects or report them. And certainly not something transparent that the public can question and get an opinionated consent with the data.

When patients go to the doctor then the doctor refuses to report and says it's not about the vaccine. When a doctor wants to report, then he has no idea where because there isn't really such a system.

The civil investigative committee has done a lot of good work from your startup office with few volunteers and no budget.

It's just a shame, deceit and fraud...

My gynecologist said she's getting loads of patients with terrible side effects after the vaccine

And I asked if she was reporting to your office?!

She replied that there is a duty to report only 24 hours from the vaccine.

An hour later, there is no longer " connection to the vaccine " and the report is not accepted!

According to your instructions

Why?

Why?

Out of 3.2 million, only 19 cases were seen with significant side effects? Doesn't make sense.. I'm voluntarily immune 3 times and every vaccine was accompanied by all possible side effects including lymph gland inflation in the armpit and like me there are many more.. So at least be trustworthy in what you write and then people will also believe you and go I'm for vaccines and to me the advantage of them exceeds the downside but the lack of transparency is problematic and causes people to distrust in the system and it '

Mother, 67 years old, no history of clots, healthy, no background diseases. Had to replace a hip joint. One month after the second dose of Pfizer, on February 17, 2021, she had a huge ischemic brain stroke, erased all the right lobe of her brain! I reported it to you and didn't receive any reference. From February to today she is hospitalized in an increased internal hospital! Eight months! We family are exhausted!! She's been breathing on her own for a few months now. The brain catheter in Asaf, the doctor said that she has never encountered such clots, with the texture of crumbled stones, many clots and tires that blocked her oxygen to half her brain! The stroke was so big that the neurologists didn't think she would survive, they cut off a third of her skull to give the brain edema room to swell. To this day she doesn't have a bone in her skull. Mother, who was completely clear, an intellectual, sharp and scientific woman, today she is most of the time in a coma, if she opens her eyes it is rarely, she does not recognize anyone, her recognition is very low and low. Not responding and not cooperating. Not very rehabilitative. You killed my mother.

I was asked to send here a message from someone that the truth minstreon blocked her for thirty days:

**Inga Ingeborg Batyah Natan:**

Hi Ronnie

First of all, well done for the courage and strength in you to stand for the truth!

I'm a physiotherapist with a 30-year veteran, without vaccines, currently with a recovery certificate until the end of December, and after that I'm probably going to have to stop working because I'm not ready to take a PCR test every few days at

In short

I wanted to respond to this article from the Ministry of Health, but since I'm blocked on Facebook for 30 days (this is the third time! Can't respond to them!

But I thought I would write to you what I wanted to write to them, and unfortunately I can't write to them:

My response to the Ministry of Health that they write on Facebook that there are very few side effects.

It's all true and totally true!

A good friend of my friend died of pigeon cardiac arrest after a 43-year-old vaccine,

The mother-in-law of a friend at work died a heart attack two days after the third vaccine, he was 70 years old completely healthy,

Uncle of a friend at work, 57 year old dead cardiac arrest,

The uncle of a cardiac arrest patient died 56 years old,

Two childhood friends of a good friend of mine, about 40 years old, completely healthy, died a few days after a second vaccine,

One patient of mine with a brain event the day after

Another patient is paralysis in one leg and blindness in two eyes.

A good 61-year-old friend received half-facial paralysis as a gift.

A friend's family member was pregnant week 10 the next day the injection,

Come on, how dare you talk about very few side effects?

How do you not count the lives of all the injured?

How do you not count the lives of all the injured?

How do you not count the lives of all the injured?

How do you not count the lives of all the injured?

How do you not count the lives of all the injured?

How do you not count the lives of all the injured?

How do you not count the lives of all the injured?

How do you not count the lives of all the injured?

How do you not count the lives of all the injured?

How do you not count the lives of all the injured?

How do you not count the lives of all the injured?

How do you not count the lives of all the injured?

I'm after a second vaccine, for 3 months already suffering from heart rhythm irregularity. It took me a while to relate to this and understand that there is a chance that there might be a I've never suffered from this before. In recent days I have experienced a shame in the situation. I obviously can't link this to a vaccine for sure. But I know myself before him and I have never suffered any heart problem. As of now I will not be vaccinated with the third vaccine and I will definitely not store my little girls. Beyond the fact that the whole approach of coercion, demonization against people who choose not to get vaccinated, your lack of transparency and all your failed management makes me personally develop a significant distrust in the Ministry of Health and the state in general... Too bad, painful and sad. Bad times...

 Do you know the post of the New Zealand Prime Minister who tried to convince him to get vaccinated and the Pobet opened Pandora's box about the side effects, with 44,000 reactions So like this.  
 You don't mentor because you are deprived of pre-contact for a vaccine.  
 A healthy person I knew 64 years old died two days after the first vaccine.  
 Interesting how you treated his death, if you even have the possibility of having a connection to the vaccine. My evaluation - you ruled out, because this is the policy of Professor Rahav, straight up Shalala, why say we will check, investigate? The easiest to rule out. And that's why there are no side effects in you. Amazing.

Unfortunately, my 12-year-old son was diagnosed with a cardiac infection after the second Corona vaccine dose! From a healthy child became sick, he was hospitalized for a week and now under surveillance, no sports activity for a minimum of 3 months - an athlete boy who plays for 8 years basketball and sports is his whole world.. With a heavy heart we vaccinated him, despite all the warnings and side effects we knew could have.. Take everything into account that you vaccinate the children. Like him there were more in the department, most of them boys. We fell on the wrong side of the statistics, but every percentage is hundreds of children and every child is the whole world. I don't judge those who don't vaccinate or those who vaccinate.. but I do understand that it's to Not everyone this vaccine is suitable, and unfortunately Israel and our children are being used as an experiment laboratory to improve and streamline and aim for more immune. The sickness office you lost me completely with the false data!! I personally know a number of similar cases in my near environment, all of them young and healthy boys affected after a vaccine with different cardiac images. In our case in " luck " it was one day after the second vaccine so there was no escape from linking it to the vaccine! It's important to note that I'm not anti-vaccines and I myself am twice vaccinated. ⚠️ I didn't want to write the comment out of respect for keeping my child's privacy, but to me it's wrong to read such ⚠️ You must not forget that coercion is more dangerous than Corona. May every person do what is right for him and his children, only health ❤️🙏

Lying with a determined forehead is a severe step up  
And lie to bring down more spaces  
This is an atonement that has no atonement for the sons of wrongd  
Enough that you give one to wake up those who believe in you (those who are left  
are somehow confused)

Suppose I got 2 shots, and suppose I don't feel like getting the next one in line,  
Will I be safe?

The findings in your hand say no!  
And I'm likely to be in danger of life  
From not getting the booster.

I mean that the first injections keep my innate immune system from rehabilitating  
and doing its work, and if I don't get the next shots that only your black demons  
know what's really inside them, Acros may you get.

Is this what you call an effective and safe womb?

Is this what you want to sell to the masses?

I don't expect you to talk, but my brothers and sisters  
With common sense I wish to listen...

If you love life and believe in the power of natural systems that are nothing like the  
wisdom of their creation and creator,

Please plzzz beware of the fraud

That there is nothing like her.

Taheli Ofri

I'm shocked that our Ministry of Health ignores the amount of casualties and side effects.

Dear Ministry of Health,

Have you forgotten that you are supposed to be in our favor? Your people?

Have you forgotten that the goal here is to keep us all healthy?

Do you really think that ignoring all those many injuries, in so many citizens, is a logical or correct way of action??

Where is taking responsibility for all those casualties?

And where is the transparency? The real explanation about participating in the experiment?

Where is the knowledgeable consent?

Where are the values and emphasis on what really matters, and not what is economic??

Wow.

Unbelievable.

Interesting your data, I probably know all those you reported.... A mother with shingles after the vaccine, a friend with numbness in her limbs, an aunt with MS that suddenly erupted, a client with a stroke and numbness in her limbs, a soldier of my niece who died of cardiac arrest only. 21 years old, former boss cardiac arrest after the third course, should I continue?

My brother developed an acute allergic reaction immediately after getting the first vaccine and he was prescribed 50 milligrams of penistyl, three times a day!!! My brother is a 13-year-old boy, since then there has been no improvement and his whole body and his face is filling up with swollen and itchy scratches / Movement. My sister is 20 years old, a soldier, for four months she hasn't received a regulator since getting the second vaccine, plus she reports muscle pain mainly in her legs.

Today I was shocked to hear the testimony of a woman working in the Ministry of Health: When asked if she was vaccinated, she answered:  
" I work in the Ministry of Health, no one in the Ministry of Health gets vaccinated, it is known to be dangerous "  
In my eyes it's a crime that will not forgive, people who know how to work in a body that pushes the public a substance that endangers his health and life and Partner in crime. I think we need to do an in-depth investigation among all the people who work in this office.  
  
Another testimony I heard a month ago from a woman who works in the health system reports a catastrophe in departments: a sharp rise in neurological, heart, and cancer injuries. Doctors are silenced and banned from reporting the injuries from the vaccine. It is recorded only what happens days after the vaccine. The rest has no validity.

Shlomit Rak Yahalom

Of course..

My son succumbed to the stresses and got the poison shot. Heart end disorders. Healthy man 34 years old! Arrived in the ambulance to the ER. Most doctors said it wasn't related. My bum isn't tied. And then came one brave cardiologist who admitted it was related. He will put this poison in his body again on my dead body. And my sister.. who came to the hospital with half-facial paralysis and inferno pain.. definitely not related...

And another sister of mine who suffered from skin toad and enlarged lymph nodes...

They told her not to get vaccinated again...

And now

My son tried to report the phenomena on the site and then his eyes were opened to understand the magnitude of the lie: you can't report!

Neta Or

Where to start at all??

My sister's cleaner's nephew, 20 years old, collapsed after the vaccine and died.

My brother-in-law's employee's 21-year-old brother did not wake up Cardiac arrest.

A friend's mother (who tried to convince her to avoid the injection unsuccessfully) felt bad a few hours after the vaccine, was hospitalized and died after two weeks in the hospital.

In my Facebook feed \* every day \* mourning ads appear in the style of " deceased prematurely ", young musicians and creators who were vaccinated, adults, from everywhere in the country.

And what's most sad is that because good, smart and innocent people believe you that " the vaccine is effective and safe " I come out of a delusional thing that connects " coincidences " to reality.

Your disconnected and false post + comments prove that there is an extremely difficult reality.

I imagine that whoever injected the experimental component did it for all kinds of reasons and I respect people's choices with all my heart, but you Because you know that this vaccine is dangerous, you see and hear about people affected, how did you not stop this horror, after the first casualty????

How do doctors and nurses see what's happening, including a crazy amount of abortions, silent births, how are you not at a demonstration on Saturday, organize as a group and say: I will not cooperate with something that destroys human lives!

To all the medical personnel who are aware of what is happening, please stand up and act.

It's a little late but you still have the opportunity to be on the right side of history, that works for health, well-being and human happiness

Courage!!

**Yaniv Segal**  
Y' all one big word washing  
Go you inject, and leave the people alone  
  
My father collapsed and was hospitalized 4 days after the third vaccine.  
No doctor knows how to tell what happened, but the suspicion is that it's something in the heart.  
There are no clear signs of a heart attack... So what happened? And who's counting it?  
  
Enough to tell half truths and lies  
Who still trusts you after doing so many human experiments anyway?  
Shear, Sebiwak default, sterilization of immigrants from Ethiopia,  
And what about experiments and research carried out in thousands of old patients in Kaplan and Herzfeld hospitals?  
The hand is still open, if I search I will find a few more examples  
How can you put your head in the sand and say that you are interested in public health???

Lord so many lies in one post.  
Except Sharon Price testified in front of the FDA about one case of cardiac muscle so coordinate with her testimonies.  
There is no trust in you and your false data.  
Each of us knows people with side effects that everyone says has no connection to the vaccine.  
And only in the testimonial project there are more phenomena than you report.  
Rude!

It's a shame that so many of those who have experienced side effects, the answer is given that " there is no direct link to the vaccine ". For those who have experienced this in daily life and experience " life before the vaccine " versus " life after the vaccine ", It doesn't help that medicine can't find the connection. Of course there is a connection. But indeed, if we don't count all those who received the answer " no connection found ", we will see low numbers indeed. I don't wish anyone or anyone to join the group of proven and transparent casualties 😞

A partial list of side effects of the vaccine with them came to my clinic this week:

1. Strong tinnitus that arrived the next day. The second vaccine has been going on for four months with serious injury to sleep and quality of life.
2. episodes infections - appeared three days after the first vaccine about a year ago and since then it has existed with a changing power.
3. Male pericarditis in the twenties. About a week after a second vaccine. He was hospitalized and discharged but has since suffered from fatigue and has been significant in physical fitness.
4. Four cases of significant changes in circulation. Two of the cases in girls after the first vaccine.

And this is just a partial list, and only in my little clinic and only in the last week.

So miss Elroy-Price stop crying about feeling 'damn hairy' and start checking herself.

Nev: Nitzan Horowitz-nyzn hwrwvyyz you are a huge disappointment.

Scammers.

Do you monitor the side effects? You made me laugh..  
I personally know some people who complained to the doctor about the phenomena they read after the vaccine. And the doctors are denying anything to do with the vaccine. And even if they want to report, they have nowhere to go. Crimes are what you are.  
Don't worry, the truth always comes out even if we wait a long time.  
And in general - what about an opinion consent? You are breaking every law.  
And the green note is a sad joke at our expense.

There are not enough words to describe your crime against this nation.

40. years old

I did 2. after years my period is accurate and stable. I've been through six months of crazy body mess.  
Early, since, bleeding like I've never experienced before.  
I don't take pills, and without a device.  
I went to a gynecologist, performed every test possible including a hormonal profile.  
And finally the doctor himself linked the phenomena to vaccines and still told me that I'm not the only patient!

I'm sorry, but where is the reference to bleeding and circulating disruptions? Thousands and tens of thousands of women report it and you are ignoring only today (!!!!) finally decided to check it out. Why? Why isn't it written down? Because about three + months of disruption I haven't read and haven't heard of any other vaccines. Maybe this only happens to those with hormonal birth control, but check! (It's not, my friends without but let's say)

First vaccine passed successfully. Side effects are really neglecting. Second vaccine - vertigo is not easy. Headaches. Muscle pain to this day. And the highlight - only in your presentation I realized that bleeding in my eye that I have for a few months and I am attributing to not the cleanest lenses also came from the vaccine. And I didn't know at all because you didn't publish anything dear Ministry Silence of all side effects so that we get vaccinated. Not just 2 million and I won't get close to the third vaccine. Both in this post and in the huge lack of response to the Booster, the people vote with their feet. I don't believe you anything anymore. Where have we come to. The institution in my eyes was the most trustworthy, completely lost trust.

Many of the side effects are not reported to you. We suffer in silence. The third vaccine was the worst. Fever, muscle pain, tremors, strong weakness, nausea, headaches, heart rhythm disorders, fast pulse, pain, swelling and ruby at the injection place. And this all lasted for five innocent days. Not 24 hours and not 48 hours.

All inclusive vaccine.

There are many who have experienced nothing compared to others who have suffered greatly. The third vaccine is worse than its predecessors for some of us. The FDA didn't approve him because it's not right to give three vaccines in such a short term of time. This is a miserable political decision that prefers economy over the health of its citizens.

Many will be told about her later.

**Reut Shlomi Ressler**

You impose experimental medical procedures on us,

The side effects in the short term are hard, many and expressive as it is so sad to read here in the comments,

The long-term side effects are not yet known because we are the experiments of coercion and uninformed.

There is no explanation and no justification for this. This is a crime.

That's it. Period. End of verse.

I hope that as many of us as possible will stop cooperating with you and all this will

Representatives of the Ministry of Health, a question to me: Do you believe yourself when you lie consistently?  
When the Minister of Health makes allegations about the non-justification of the green note epidemiologically (in a section recorded without his knowledge) and then when asked on the broadcast about the things he said he replies : "I didn't say that!"  
What? How didn't you say that Mr. Horowitz? A second ago you heard in your ear the recording of your words. This is an embarrassing joke.  
.hvry'wt you're probably teaching yourself to lie and believe in your lies משרד  
I'm sorry. There is no logic and consistency in most of your guidelines. When there is no sense in the instructions I lose trust.  
Start to understand that the people are not dumb.

My sister had to get vaccinated with no choice (bank worker) and before that she was told that she had to get vaccinated in the presence of a doctor because she has anaphil  
She went to get vaccinated with my mom (who is a nurse by profession) it hasn't been half a second since she got the vaccine she started to feel the symptoms that the tongue is swelling, lack of response, the doctor was in the next room and even before he arrived my mom pushed her syringe (anti-medication) now they They say it's not called that she was vaccinated that she would do the other one too  
My mom screamed at them that she could die and they don't care.

I'm 44 years old twice vaccinated, vaccinated every year for the flu and really don't resist vaccines... Everything you write here is really not true! Your data is far from true, you can't rely only on those who come to hospitals, I after the second vaccine started bleeding like menstruation, fatigue and extreme exhaustion, chest pains and heartbeats just like a heart attack.. (which is not yet going through) and if it was possible to determine Cardiologist appointment without waiting a few months for each appointment so you would see completely different reports! This is also one of the reasons why people collapse like this suddenly 😞  
What is also that a large majority of those around me who made the third vaccine tell that they have a scary expatriate of the lymph gland under the armpit and a really high heat for a few days.  
Maybe try a little to upgrade the health system here instead of just promoting vaccines and then it will be possible to access doctors in normal times without waiting for months and delusional appointments and maybe it's also necessary that everyone's family doctor will be sure to ask each and every one of their phenomena and report in the system of the checkout and that all the data will pass to you as That they really are in reality!  
Coercion by green note sanctions will only keep us further away from the vaccine, maybe instead try to check the reasons people refuse to get vaccinated more and more... Maybe there is truth in their fear??  
And it's true that there are those who got vaccinated and went through it with no effects at all but hey, whoever fell in statistics with side effects is not interesting.. And you also never know what the damage will be done in the longer term!

Like · Reply · See Original (Hebrew) · 10h 34

Explain this now to the owner of the explosion I just came back from. He was vaccinated on third and already a month on steroids after his lymph nodes swelled until he couldn't breathe and his friend had a heart attack on the same day! Of course I have heard of other cases from the near environment even the answer they were given in the hospital is that these are probably the side effects of the vaccine but they are not willing to mention it in the description of the hospitalization or discharge Who covers themselves in this way if these aren't side effects and caused directly from the vaccine?!

A system that doesn't allow its doctors to report properly.

Doctors who underestimate vaccines victims.

Doctors who refuse to admit to Rish Gali that there is a real problem with immune safety.

We the affected patients were required in the first months to fill out a form that the fields were limited in the mall.

Why???

It was impossible to properly write the side effects!!

My diagnosis by the way, does not appear on any page in your ridiculous presentation.

Trust in you is over!

Based on what did you shut down the country for 7 months? Because of 1.5 % people who died with / because of Corona?

Why did you version the contingency plan in case of a pandemic that was ready years earlier?

You don't understand. People got some brains (for those who injected twice and now required to inject in the third) and tokens are starting to fall.

Public health is the last thing that worries the office, and if that's the case, start treating the oncological patients, that medicines, surgeries and hospitalizations cost a fortune!!!

And if public health is so important to the corrupt office of the country, you would stumble vitamins, proper nutrition and staying with people so that the mental side will also become stronger.

You've put anxiety and panic in people.

Barak Barlev

Hi I had both vaccines after the vaccination nurse didn't want to vaccinate and the doctor I had didn't want to send me for a serological test because I was sure I got sick and she didn't believe me, for the sake of disclosure I'm with an asmatic background

After the vaccination I started an acute allergic reaction that manifested that I can't get near furry animals (quite a problem when my job is a dog trainer and I have at home 3 dogs and a rabbit, all my life I've been with furry animals)

Apart from that I started very strong headaches that come and go, serious memory issues, sleep inability, inability to work continuously (before the vaccine I was a work animal today after 3 hours I'm a rag) today to keep functioning I'm taking close to 50 Pills a day, steroid shots in the clinic once a week, 3 inlations a day.

The doctor I had refused to acknowledge that it was somehow related, refused to write down at first that it happened in a close proximity to the event and only after repeated requests wrote that it happened after the vaccine in a relevant time range.

The problem is that those who experience side effects, and there are a lot of them just find themselves alone in the campaign and have no one to talk to.

Maybe if instead of denying side effects you treated properly everyone who experienced them, we will start by believing them, treating them and maybe even Rahmana Litzlan compensates him, things would look different.

No one believes you.

Big thanks to the brave people who write here. Your voice is heard! And for the Ministry of Health - this is a "no connection to the vaccine" epidemic. Where exactly is your monitoring? All my life I've known one person who died young from cardiac arrest and within four months five people under 60 died for the same reason, so there's no connection to the vaccine? Not to mention other and no less difficult side effects around me of shingles, hormonal problems, blood clots, adenomyosis, brain stroke and more and more.. **אזרחית חזקת ועתה מ'מ** that this is a small body that few know there are already thousands of testimonies. And this is a crazy sub-report. But did you collect 19? Bad joke.

C'mon really reported information? When doctors insist it's not about when a doctor tells a sufferer from a side effect he's imagining! It's about a 55-year-old man! Surely all of these report nothing. They understand the instruction to be silent seasoned with the threat of losing work. This holidays didn't wake up since 3 young people from the Orthodox sector around wave 40. They died suddenly party and it's not related after 3 doses of vaccine. But Price will find out that only one myocarditis I know 2 of them. And it turns out that only 2 died of cardiac arrest. And only 1.5 suffer from partial paralysis. 1 from tinnitus in the ears. 2.5 of skin being 1.25 of neurological problems. 1/3 A woman suffers from severe bleeding or menstrual disappearance. Really lonely nothing and nothing will eventually explode in your face. Engineered explanations of Pfizer slaves don't affect. I know 15 who suffer from side effects some of them from several effects together. The lies are not helping.

There is no scientific and factual basis for wearing a mask in the public space, this is psychological and physical abuse. There are already quite a few people who have become sick as a result of contaminated masks and many are feeling breathing difficulties and have difficulty talking. Masks are mainly meant to obey, to shut mouths, and to blur the country of face and personal identity.

Sharing that I succumbed to fear and threats and went to get vaccinated on the first dose 3 days ago, since I experienced severe side effects of spine pain, breathing difficulties, unrest, fever, pains all over the body, intense pain in the shoulder, hand surroundings and more. For 8 days I can't recover and return to function, it's much harder for me now than when I was sick with Corona 8 months ago. I got vaccinated solely because of the green note and it's a mistake, it's better to get sick and go through it Don't surrender to the dictatorship! Not simple days pass... Let's hope for better days 🙏

I recommend that you post a link to the discussion of the fda so that people can expose what is said there about the vaccine. There is a big gap between what you, as the Ministry of Health and the Media have reflected what is actually said. If everything is right and wonderful in the vaccine why is the main thing said (by most of the experts in FDA) censored and not reflected here in Israel - as said neither in the media nor by you. It seems that in the FDA discussion, experts mostly testified " corona deniers or corona opponents as you and the government call them, because there were poignant words about the vaccine, about the side effects and ethics. And in general, let people make informed decisions while agreeing with opinion. And not half information, censorship and shutting mouths.

The monthly cycle has gone completely crazy and my flavors have twisted (I am not able to eat sweet, it tastes very strong). All this happened right after the second vaccine. My gynecologist and family doctor say there is no connection. If they didn't write it in the system, how is data collected on Louis phenomena?

Data that is disconnected from reality! From experience - an inflammation of the heart muscle that the doctor is briefed to treat as a " not serious " phenomenon and sweep it.  
Like me there are thousands I'm sure.  
I personally know quite a lot of other people with vulnerabilities that refuse to acknowledge them and surely don't put them in the real data.  
And this is why people have lost faith in you and vaccines and not because they are ' vaccines opponents '!

You need to officially announce that the Pfizer experiment failed in Israel, herd immunity cannot be reached with 70 % and 80 % immune.  
You are now trying to reach 100 % incitement against the unvaccinated to check maybe that's how the vaccine will work.  
On the way you destroyed the country, people are fired, moderated, and health injured by the vaccine  
Y' all need to resign immediately on the way to the prison waiting for you  28

Noam-Shir Lavy

I got vaccinated in pregnancy, in the middle of my pregnancy - first and second vaccination.

Towards the end of my pregnancy I started crazy joint pain!

I'm a healthy girl who has never suffered from this.

I thought maybe it's something from pregnancy, and will pass after giving birth like everything.

Me 3 months postpartum,

The pain only got worse and even spread to areas that didn't hurt before.

I'm suffering every day from intense pain in my knees, can barely climb stairs (and I'm a healthy 28 year old girl with no health problems tfu tfu tfu!!!!!!!)

Can't get back to the gym to work out

Because my body, muscles and bones feel 90 years old and not 28 years old!!!!

Doctors don't know what it is and no one has answers, one of the doctors threw in the air and by the way, that it could be from the vaccine or a side effect of healing from what he got to see. (I didn't get sick with Corona, thank God!

So all your post is one big lie

Stop deceiving and lying to everyone

And put pressure on the public!!!

I have never resisted any vaccine, me and my children are vaccinated while in everything!!!

But in this case, I can't get vaccinated in the third dose because I'm taking a huge risk that the pain will intensify 2 times more than it is today!!!!

It is not possible that a citizen of the country will be either vaccinated or outcast.

Against every possible human right!!!

Hi Ministry of Health, question, why does your form for reporting a side effect from medicines require personal information and allows an update to an existing report while the form for reporting a side effect from the vaccine is anonymous and there is no option to make an update?!  
From personal stories, to which I was exposed one side effect can get worse and become a few within a certain time, so how exactly do you follow the cases?!  
Why does it look so amateur?!  
By the way, at my mother's place immediately after the second vaccine, pains started in the shoulder of the vaccine, I told her to report a side effect but in her consultation with the factors of the profession she was told that it was a coincidence and there was no connection to the vaccine. Meanwhile, 7 months already with severe pain and the "inflammation" that pops up is not undergoing any treatment...  
Did you even assume the factors of the profession to collect data or did you prefer the "safe vaccine and the case is due to something else"?!  
Another matter, why there is no permanent transparency about the side effects of the public on a weekly basis as there is in England, Sweden, USA and so on?!

At least be honest in the phenomena.. 😞 What did you take a bulletin for the consumer of Tylenol and copied the side effects?... At least it's fair to present the terrible effects that happened... (also on my part if it's 2 people.. but present them).. Syrian is just a delusional fabrication.. Enough it doesn't care about the public anymore the information that choose tweezers to publish and how to advertise... Enough people have had enough.. Lost trust leave

I don't belong to the opponents of vaccines, but the Ministry of Health lies with a determined forehead, the Ministry of Health doesn't bother to receive a report of anyone who developed side effects after receiving the vaccine.  
Whoever suffers from symptoms has nowhere to turn to and report, the family doctor is really not interested in "extra work", so that he is also not interested in the patient who developed side effects immediately after receiving the vaccine and the most "funniest", is the same immune (yes that's me) when he arrives To get the booster, the doctor who is there tells him, here you can't get vaccinated, go to your doctor to refer you to get a vaccine in a medical facility, the family doctor doesn't bother to contact that person and explain to him whether he can even get the booster and if so where

My friend, a 32.-year-old young mother, after a 2 vaccine, got herpes all over her beautiful face. There is no connection. No way. After two months of bronchitis!! A 32-year-old woman with lung disease? Perfectly healthy woman! Spent a fortune on ongoing acupuncture treatments.  
Another friend of mine a hearty " easy " event after a 1. layer vaccine in bed for 3 weeks with palpitations. And why? So she can hold her job.  
Cursed are you and all the collaborators. We know who you are, where you live. You won't be smuggled on planes abroad when the country collapses. You will meet your judgment in the streets.

What's sad to see here is the fact that you wanted perfect success so much that you turned the side effects reporting mechanism into a joke, you made a feeling that someone suffered from a side effect is delusional on the border of a liar. That's not how science is done. You have made Abyuz for the power given to you in your hands. You've become power drunk. It's a shame, because there's nothing in public health that needs more than public trust and eye-level speech. For vision you will see the difference between how the Scandinavians end the crisis compared to Australia. It's mostly damage to you. Life is complex, so are medical processors, medicines, vaccines, all have benefits and disadvantages and nothing is more important to simulate authority so that it continues to be perceived as such, believers.

Three weeks after the second vaccine I got a multisystem infection from doctor to doctor to hospital that they sent me home because " you have nothing " when I barely walk. Good thing there is private medicine and one doctor who had the courage to diagnose me as a vaccination victim.  
Among other things, I have a friend who suffers from terrible headaches and ear tanton, one who suffers from accelerated and irregular heartbeat, a nurse who stopped her period and a client who bleed for 6 weeks straight. And this is only what comes up to me without thinking...

At night he got up and went to get a glass of water and collapsed on the way back in the hallway from cardiac His 88-year-old wife called my mother, her neighbor, to come help her and they both stood with Mada on the line to try to give him CPR. One 88 year old, one 72 years old, above the man they love, 88 years old. He collapsed in the hall and died.

He had background diseases but that's no reason for this collapse.

It took to evacuate the body (from five in the morning he died) until 11 in the morning because Kadisha company was loaded with evacuation and that's after I activated a Mada arrived within half an hour and determined his death.

And of course - no connection.

The silence and experience not to mention things and flood them continues the sub-reporting you cause and here it explodes in your face. People will not shut up.

If the vaccine was safe - you would take responsibility in case of an injury resulting from it. But you don't know and that's why you roll out the responsibility to develop the users that you forced it on.

It's not a policy it's a method for harming citizens (all over the world by the way) under the guise of a good policy.

There will come a day and all of you, until the last officials who took part in this, will be judged for this crime that is being conducted here under the auspices of the end of

Pharma office peace (not at all costs) and blessings.  
I'm just a few questions with your permission:  
1. What happened to the one who decided / approved to publish this post?  
2. I'm "healing" Kokorica, I don't have myocarditis and that, am I an extraterrestrial?  
3. Like this alone, without advanced technology systems like Bennett buff 6 seats, I counted thousands of reactions of severe side effects here. How is it possible that the almighty Ministry of Health could only count about 30?  
4. In my near surroundings there are people who injected 2 and 3. They suffer from side effects: cardiac, weakness, chronic fatigue, muscle pain, infections, bleeding and generals, miscarriage, quiet birth, blood clots, headaches, paralysis of half Face, nomination, lack of balance, accumulation of fluids in different areas of the body, loss of sense of taste and smell. What did you inject them?  
5. Why did you delete comments?  
6. In light of the data that came up in the comments, do well if you would like to withdraw to improvise the warning letters you sent to doctors, as part of which you claimed to spread "false information" about the injectors and the risk of the experiment, apologize to them in the writings and publish an apology message in prime time, with the Kushmro and co.  
7. Considering that all of us (including you) know that the side effects are numerous, well do if it's already tomorrow morning notify the cancellation of injections, all their numbers and at any age, improvise.  
8. After you have been judged for your crimes (each to his share), don't expect a third deduction, reductions, good behavior, pardons and so on. it will be cancelled in your business.  
The ceremony is over.

 Why doesn't your data on the peri / myocarditis don't settle with the findings of the committee of Prof. Blessed, a committee that you appointed? His data is fake?! your data is fake? And why when you talk in a post about side effects do you go through - a topic of intimidation from Corona? “ Science ” also works like this. When you don't know and don't get along - you're scared If the departments are full and there are no ECMO devices this is your default! For a year and a half you didn't prepare the healthcare system for the horror predictions you sold to the public. You haven't stopped using life-saving medicines. You've harmed public health in almost every way possible - physical, mental, economic, neglect of illnesses and early detection, you've divided and tried the public to justify your deficits (“ the unvaccinated are guilty of everything ”). You'll be in jail!

Kinneret Friedman Rubin Oberndorfer

How does the Ministry of Health follow and monitor and collect if I was vaccinated and not asked at all about side effects? Just repeatedly getting a text from the register urging me to get vaccinated, but no text asking if I had any side effects and a link to a report form?  
What about the side effect of bleeding and regulatory irregularity as a result of the vaccine? No talk about it. Why? Women are 50 % of the population. Start treating us!

The Ministry of Health you will not be able to convince. The facts speak for themselves.

You write that the Ministry of Health systematically collects and monitors the reports of the phenomena. Bringing to your mind the inaccuracy that appears in your report.  
1. family doctors say that the forms that need to be filled in case of Louis phenomena are inflated and cumpled. And it is impossible for a doctor who is supposed to receive a large number of patients a day to also find the time and fill them.  
2. Many patients say they arrived a few days after the vaccine with Louie's phenomena and the answer they received is ' it's not related ' .  
3. Pay attention that something doesn't work out in your numbers. When I read a family doctor who tells about the fact that he recently met 3 teenagers in his clinic with pericarditis, it doesn't so settle with the claim of only 11 teenagers nationwide.  
In addition to your knowledge and attention, whoever erases comments creates the impression that they have something to hide. If there's nothing, please respond to me, even if it's less comfortable.

Hello. For anyone who can read English, I have been reading this from America and sharing with friends. I was able to translate each comment to read them. Just to let you know, they just disabled the translation feature so that people around the world can no longer translate and read your comments 😞

And it's also really not the same information that is famous from Pfizer, by the Very misleading wording.

I'm chronically ill, my risk from Corona is definitely lower - but the life I was sentenced after the vaccine made me a dysfunctional person, who has already passed everything possible!!!

Definitely won't get vaccinated again - I'd rather be closed at home \* healthy \* than crying when I woke up in the morning after another night of sleepless pain

My neighbor got a " vaccine " third and the next day he received a heart event, three weeks in intensive care.

Here we were talking!

I'd love a scientific explanation of why people recover with hundreds of opposites are still obliged to the vaccine...? I wish you would treat even though it's sure that there will be a complete disregard because there is no logical answer
