

# VACCINE SAFETY

## RESEARCH FOUNDATION

# Covid-19

*“It’s all based on trust and authority”*

- VSRF Founder, Steve Kirsch

Covid-19 changed the world as we know it.

Promoting fear to ensure compliance, global media echoed the official narrative:

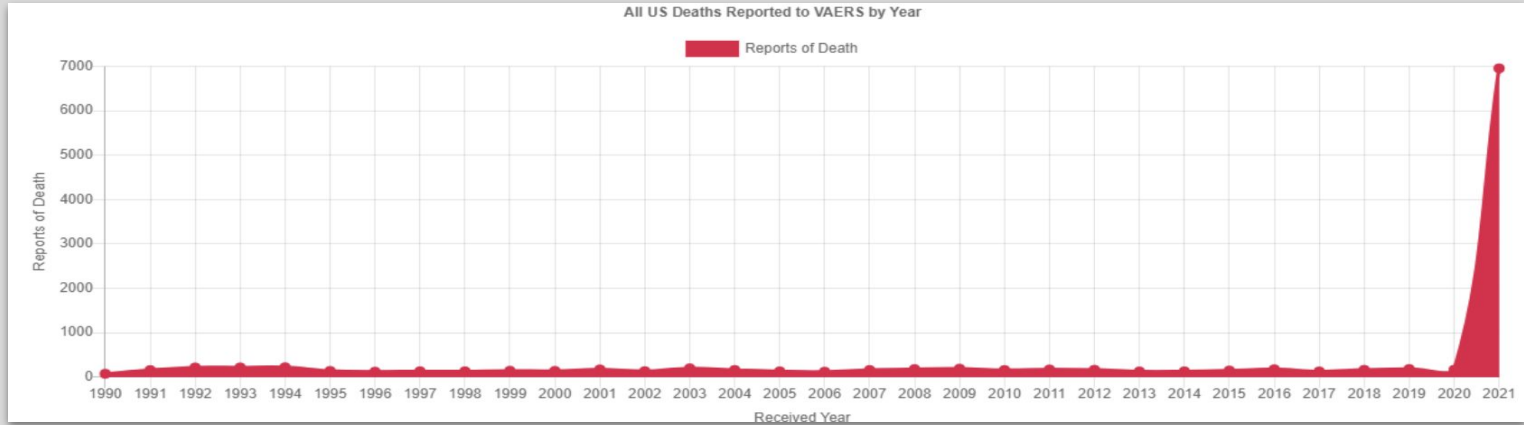

- No effective treatment exists for Covid-19
- Novel vaccines would be the only way out
- Operation Warp Speed would not compromise vaccine safety

And life would not return to normal until the new mRNA injections were “put in every arm.”

# The Covid Vaccines

*More deaths were reported in VAERS for the Covid vaccines in the first 4 months, than for all other vaccines combined in VAERS' 30-year history - CDC Data*

**Strong signals that the vaccines cause harm surfaced within months of the mass rollout. After Steve and his family took the Moderna shots, he saw friends injured by the injections.**

**Steve's exhaustive analysis of the data in the Vaccine Adverse Event Reporting System (VAERS) confirmed that the Covid vaccines were causing record-high death and disability rates. Steve gave up a lucrative career as a tech entrepreneur, determined to warn the world about the Covid shots – and save lives.**

# Origins

Steve Kirsch founded the Vaccine Safety Research Foundation (VSRF) in August 2021, with the support of medical and scientific experts including Jessica Rose, PhD, Peter McCullough, MD, Robert Malone, MD, and Stephanie Seneff, PhD. The VSRF team includes individuals with a range of expertise including medical, legal, marketing, and public health.

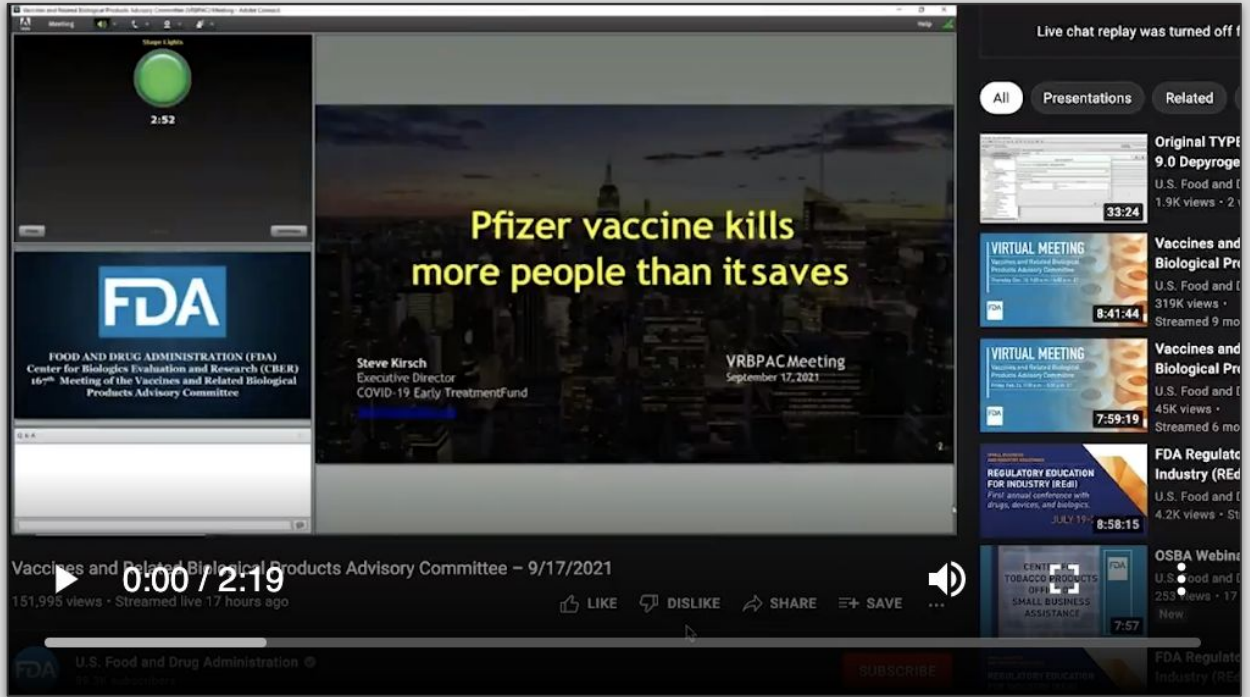

# Warning the FDA

*“The vaccines are killing more people from all causes than they’re saving from Covid-19”*

- Steve Kirsch, July 2021

On September 17, 2021, VSRF Founder Steve Kirsch presented at the FDA, warning its outside panel of vaccine experts that there was an elephant in the room that no one was talking about: the vaccines are causing death and disability in record numbers. Watch his three-minute presentation.

# Mission

*"If I save one life, then this is all worth it"*

- Steve Kirsch

The VSRF's mission is to educate the public about the dangers of the Covid-19 injections, advocate to end all Covid vaccination programs, and support those who have been injured. VSRF presents the latest data on Covid-19 public health policies, free from corporate sponsorship and conflicts of interest. We encourage questions and an open dialogue on any information presented.

# Awareness: Social Media Campaigns

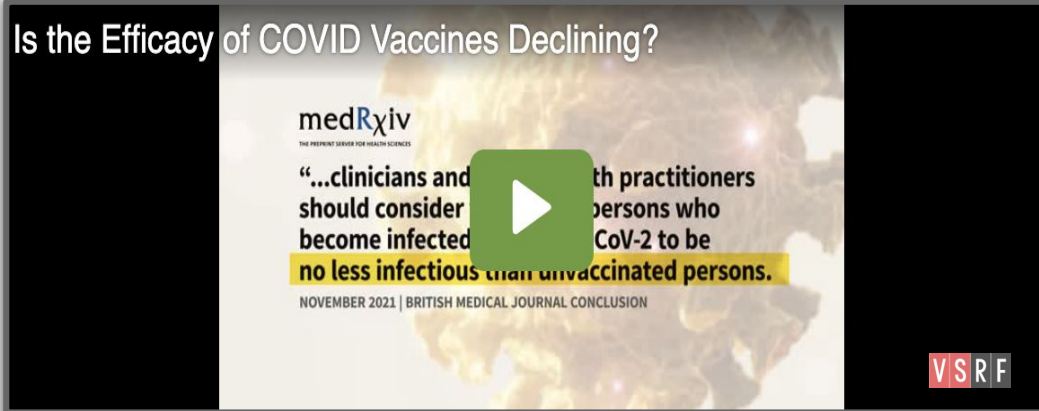

VSRF was founded at the peak of Covid vaccine mandates and censorship.

The VSRF team and Founder Steve Kirsch have built a strong social media presence, including VSRF's Defeat the Mandates brand, across all major platforms.

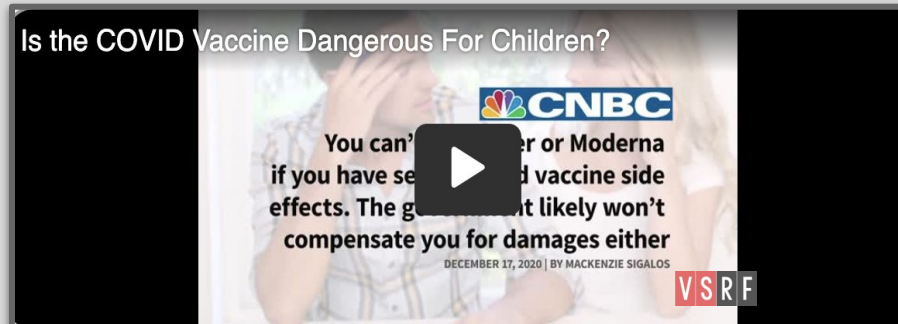

We have nearly half a million followers and millions of impressions across Twitter, Instagram, Rumble, Odyssey, Gab, Gettr, TruthSocial, and Telegram.

The image is a screenshot of a social media post from the Vaccine Safety Research Foundation (VSRF). At the top left is the VSRF logo, which includes a scale of justice and a vaccine vial. To its right is the text "VACCINE SAFETY RESEARCH FOUNDATION". In the top right corner is a rounded rectangle containing the website "VacSafety.org". Below the VSRF logo is the "FT FINANCIAL TIMES" logo. To the right of the FT logo is the word "PRESENTS...". In the center is a large speech bubble containing the text "What is the Trusted News Initiative" with a green play button icon. To the right of the speech bubble is a circular icon with a question mark. Below the speech bubble and question mark are several logos of news organizations: "THE HINDU", "AFP", "REUTERS", "Microsoft", "EBU", "CBC", "Radio-Canada", "The Washington Post", "YouTube", "BBC", "Facebook", "Twitter", and "Google". At the bottom left of the post is the VSRF profile picture and name "Vaccine Safety Research Foundation" with "18.4K followers" below it. At the bottom right is a green button that says "Follow 18.4K".

# Awareness: Social Media Campaigns

VSRF has produced more than 10 videos to educate the public about the Covid vaccines, with millions of views across our social media platforms.

# Awareness: Billboard Campaigns

In September, 2022, VSRF purchased two billboard advertisements with powerful messages and strategic placement outside the campus of the Centers for Disease Control and Prevention (CDC) in Atlanta, GA, clocking tens of millions of impressions by passing cars and pedestrians.

# Advocacy: Defeat the Mandates DC

Last year, VSRF organized and produced the historic DEFEAT THE MANDATES march from the Washington Monument to the Lincoln Memorial on January 23, 2022, featuring speeches by leaders from across the social, political and religious spectrum.

More than 40,000 people gathered to protest the Covid mandates and advocate for health freedom. The DTM brand has become a significant asset of VSRF.

# Advocacy: Defeat the Mandates DC

# Advocacy: Defeat the Mandates DC

DTM-DC garnered significant media attention, reaching an audience of over 6 billion people across TV, radio, and online news combined.

ABC's *Good Morning America* covered DTM nationwide, framing the event as “anti-mandate” rather than “anti-vax.” The following morning DTM was covered nationwide by NBC's *Today Show*. The march to Defeat the Mandates was discussed as a joke on the late-night show *Jimmy Kimmel! Live!* It was later written up in the *New York Times*.

# Advocacy: Defeat the Mandates LA

# Community: Supporting the Injured

Nurse Angela with VSRF has 23 years of experience as a registered nurse. She was injured by the Covid-19 vaccine and now supports others in recovering from their injuries.

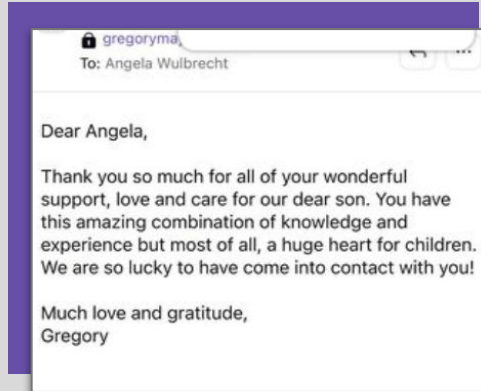

***"I am writing to thank your organization for the help that I have received from Nurse Angela. She is an incredibly well informed medical professional. Her thorough understanding of my vaccine injury/Long Covid symptoms was very impressive but did not impress me anywhere close to the level that her personal character did. Angela is an intelligent, warm, kind, generous and caring individual. She has armed me with both knowledge and hope...." - T.C., Chicago, IL***

# Community: Supporting the Injured

***“Angela...you took the time to help me...and you did it in a way that you hoped would convey to me that I wasn't being a burden.... My eyes are filling with tears as I write this from contemplating what a beautiful person you are and what an honor it was to meet you....”***

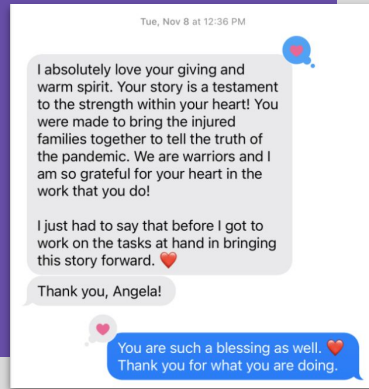

***“Dear Angela,  
Thank you for all your wonderful support for our dear son. You have this amazing combination of knowledge and experience but most of all, a huge heart for children. We are so lucky to have come into contact with you.***

***Much love and gratitude,  
-Gregory”***

# Community: Supporting the Injured

***"Thank you so much again. You have seriously been sent to me today when I lost all hope...."***  
***-Erica***

***"I absolutely love your giving and warm spirit.... You were made to bring the injured families together to tell the truth... I am so grateful for your heart in the work that you do...."***

## COVID LITIGATION CONFERENCE 2023

MARCH 25-26  
ATLANTA

**PANELS INCLUDE**

- > Employer Mandates
- > Education Mandates
- > Medical License
- > Civil Rights
- > Fraud
- > Censorship
- > Vaccine Injury
- > Hospital Negligence
- > Mass Torts

**Rolling Stone** SUBSCRIBE

“Over the next 10 years, Covid lawsuits are projected to experience tremendous growth,” the event page observes. “The conference will offer networking opportunities and panel discussions led by attorneys engaged in Covid-19 litigation. The conference is designed for an attorney audience; however, the public is also welcome to purchase tickets.” Early-bird admission costs \$445, while tickets that include bonus events over the weekend are priced up to \$570.

The conference is hosted by the Vaccine Safety Research Foundation (VSRF), an anti-vax organization founded in October 2021 by Steve Kirsch .

## 89% of Covid-19 Deaths among the Fully Vaccinated – Latest Public Health Data proves this is a ‘Pandemic of the Fully Vaccinated’ and suggests the Vaccinated are more likely to die

BY THE EXPOSE ON NOVEMBER 25, 2021 • ( LEAVE A COMMENT )

Listen Now

If you get all your information from BBC News then you could be fooled. You are currently experiencing a ‘Pandemic of the Unvaccinated’. You only did in Austria, by discriminatorily putting the Unvaccinated in a local impression.

But you are being manipulated and lied to, and we can prove it.

The latest official Public Health data from Scotland not only proves you are in the grip of a ‘Pandemic of the Fully Vaccinated’, it also proves they have chosen to avoid the questionable Covid-19 injections, are much better off.

Because the data shows that the fully vaccinated are up to five times more likely to be infected with Covid-19.
