COVID LITIGATION CONFERENCE

In September 2022, VSRF believed that litigation rather than politics would be the best route forward for our mission

With this in mind we produced the first Covid Litigation Conference this past March in Atlanta

COVID LITIGATION CONFERENCE

... succeeded beyond our
wildest expectations

“

Every single person I talked to said this was the best, most exciting, and most joyful conference they've been to...you don't usually get that at a legal conference.

*- Leading Covid Litigator
Warner Mendenhall*

EMPOWERING AN ARMY OF LAWYERS

- Trained hundreds to become litigators against Covid policies
- Popular demand for future conferences
- Calls for similar events for startups, educators, journalists, industry groups, and policymakers

THE POWER OF COMMUNITY

- In-person events create multiplier effects for change
- Defeat the Mandates and the Covid Litigation Conference are proof of this
- *Conferences are the most effective and impactful way to create change*

The Covid Litigation Conference broke even in its first iteration –
a remarkable achievement for a never-before-done event.

With this success, we're confident that future iterations will generate
even more revenue.
