Have you ever  
wondered why there  
are NO debates  
between experts on  
both sides?

Even for \$1M just to  
show up, they will  
not debate!

	To	<a href="#">Steve Kirsch</a>
	Cc	
	Bcc	<a href="#">VRBPAC FDA committee members</a> ; <a href="#">ACIP committee members</a> ; <a href="#">vaccine friends</a> ; <a href="#">Vaccine Truth</a> ; <a href="#">Del Bigtree</a> ; <a href="#">Tucker Carlson</a> ; <a href="#">Daria</a> ; <a href="#">Daniel O'Connor</a>
Subject		My \$1M debate offer to ACIP and VRBPAC members

Who wants to be a millionaire overnight?

I'm offering \$1M to have a debate with voting members of the VRBPAC and/or ACIP committees.

If just one person responds, you get the entire \$1M. If two people respond, you split the \$1M.

I will accept the first 5 voting members to respond, so you are GUARANTEED a minimum of \$200K each which I trust is adequate compensation for a few hours of your time. You have until midnight Friday November 19 PST to respond.

If you are worried about conflicts of interest, don't worry. I will donate your share to a charity of your choice such as your institution.

Plus, you would be doing a GREAT public service in combatting misinformation from my team of vaccine experts listed [here](#). This will reduce vaccine hesitancy, a key goal of the FDA and CDC.

Because you can never be unvaxed, I know you'd agree with me that it's **VERY** important that every American get the **FACTS** before they **VAX**; the video of the debate will allow them to hear from EXPERTS on both sides of the key issues.

We'll have a mutually agreeable neutral moderator for the debate.

I'm looking forward to hearing from each of you.

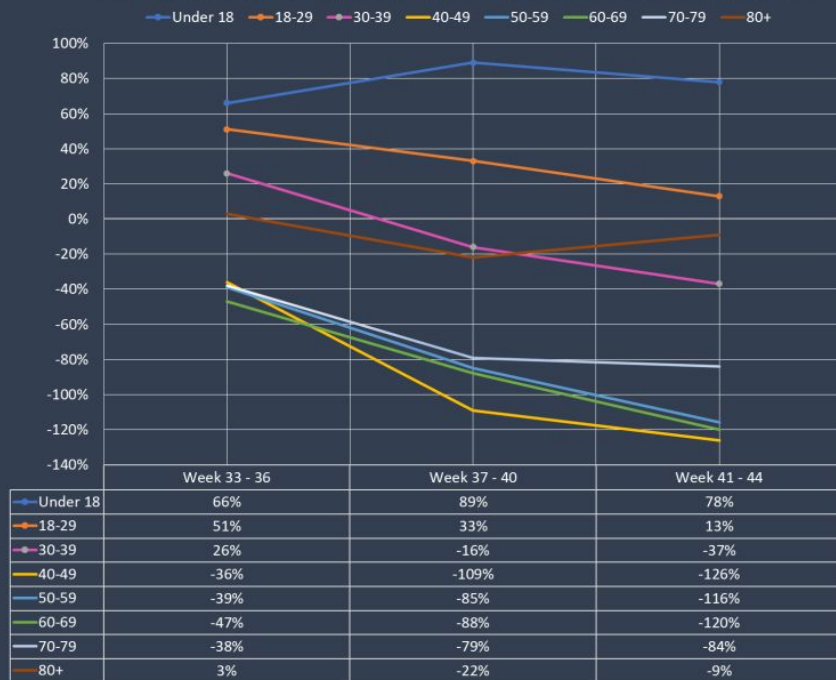

-steve

# Are An Alarming Number of Athletes Dropping Dead After Getting the COVID Jab?

BY [STEVE MACDONALD](#) / 6 NOVEMBER 2021

Inbound from a reader, we have a list of links to cases of athletes who just dropped dead. All of them are recent. And the number of them seems excessive, all from heart-related complications.

# Celine Dion

Got the vaccine.

Can't perform anymore.

Maybe for the rest of  
her life.

Nobody is talking.

November 5, 2021 · admin

The [Celine Dion](#) Blog.com

November 5, 2021

French-Canadian singer Celine Dion announced via Instagram on October 19 that her long-awaited show at the Resorts World Theater in Las Vegas is cancelled. Ms. Dion, 53, is reportedly suffering from "severe and persistent muscle spasms" and cannot perform as a result.

Resorts World announced in September that all new hires are required to receive ~~COVID-19~~ or viral vector ~~injection~~ as a condition of employment.

Canada requires ~~vaccine~~ passports for international travelers.

IBT article says, "Dion has taken the ~~COVID-19~~ ~~vaccine~~."

French weekly magazine *Public* reported on October 29 that Ms. Dion is paralyzed.

A relative told the magazine the following:

*"Celine can no longer get out of bed, move or walk. She suffers from pain in her legs and feet which paralyzes her. She is very weak and has lost much weight."*

# THESE ARE ALL IMPOSSIBLE

...if the vaccines are

Germany 15 years old goalkeeper Bruno Stein dead

# Latest news that everyone should know

Damages DNA repair → increases risk of cancer

 Kanekoa @KanekoaTheGreat  
1h · 🌐

An in-vitro study from Stockholm, Sweden found that the SARS-CoV-2 spike protein enters the cell nucleus and impairs DNA repair.

"Mechanistically we found that the spike protein localizes in the nucleus & inhibits DNA damage repair by impeding key DNA repair protein BRCA1 & 53BP1 recruitment to the damage site."

The Covid-19 vaccines use mRNA to deliver an instruction to cells to produce this same spike protein.

If the spike protein enters the nucleus and inhibits DNA repair then this potentially increases the likelihood of cancer later developing.

Hi Steve:

Thanks for your message. Yes, 42% of kids (5 to 11) have had COVID and recovered from it. So in a sane world, that would factor into the equation and they would be spared from being injected with products that they do not need. But we don't live in a sane world.

Biden and the Pharma Cult (including CDC & FDA) are uninterested in previous infection and recovery rates. As you know, they want to vaccinate EVERYBODY, thereby likely wiping out the natural immunity that the 42% have. Biden and the Pharma Cult will never test for antibodies or previous

# Safety and efficacy

How dangerous are these vaccines?	>800 times more deadly than the deadliest vaccine in human history (Smallpox)
Is the spike protein cytotoxic?	Yes
Are the vaccines safe?	No! Kill>save rate for all ages.
Do we know the amount, distribution, and duration of the spike produced after injection of a known amount of vaccine?	No clue. Never measured. Varies in each person. Uncontrolled.
Is there danger of original antigenic sin, enhanced replication and infectivity, and prion diseases?	Yes
Is there danger to the human reproductive system from these vaccines?	Yes. Menstrual issues are elevated by up to 8,800X normal.

# Safety: >100x more dangerous

**ColleenHuberNMD** Writes The Defeat Of COVID · Nov 3

This very topic got me suspended permanently from Twitter back in February. I had quoted Dr. Hervé Seligman, infectious disease professor at Univ of Marseilles, a direct and verifiable quote that the Pfizer shot was dozens of times more lethal for seniors and hundreds of times more lethal for everyone else than the covid shot. I included a link to the original article in Israel National News, and that did it. No more Twitter for me. I think of the lives that could have been saved if seeing that quote could have caused anyone to reconsider and to defer a very reckless medical treatment .

♡ 2 Reply ...

**ColleenHuberNMD** Writes The Defeat Of COVID · Nov 4 Liked by Steve Kirsch

Typo: I typed this too fast yesterday. The infectious disease researchers had opined that the Pfizer shot was deadlier than naturally acquired covid disease.

Age	Killed	Saved	K:S
20-30	67	11	6.1:1
30-40	121	31	3.9:1
40-50	210	76	2.8:1
50-60	436	185	2.4:1
60-70	1031	450	2.3:1
70-80	2140	1133	1.9:1
80+	6276	3458	1.8:1

## Killed>Saved for all ages

The table shows the Killed by vaccine:Saved from COVID death in 6 months numbers. Units for both columns are per million doses.

You can [read this article](#) which details how all these numbers were calculated.

For kids, we kill over 6 kids to save 1 kid from a COVID death. Mandating vaccination for anyone, especially school-age children, is proof of a corrupt society.

Bottom line: It is nonsensical to vaccinate any age group.

# Safety and efficacy

Are there more or fewer cases of myocarditis since the vaccines rolled out?	More. <u>There is virtually no risk of this from COVID.</u>
What is the 5-year survival after vaccine induced myocarditis?	Nobody knows.
Are the vaccines effective?	Viral loads same. Line slopes wrong way
Are there more cases of serious adverse events on the field in athletes since the vaccines rolled out?	~ <u>60X normal</u>
Can these vaccines make things worse for people by making infection easier or impairing their immune systems?	Yes, <u>absolutely.</u>
Do vaccines work against RNA viruses like COVID?	<u>Nope.</u> It was wishful thinking. <u>We still haven't cracked the code on RNA vaccines.</u> Not safe or effective.

# How do you explain these?

**Ely** Writes The Truth Patrol · 22 hr ago

I just heard from a cardiologist who stated that since the vaccine rollout, he has seen a 100X increase in cases of myocarditis or pericarditis. These monsters (big pharma, politicians and MSM) are killing people. Totally unconscionable to suppress this information, all for a vaccine that doesn't work.

♡ 4 Reply ...

### Note:

Two dose calc:  $1000000 / ((5.2 + 71.5) * 41) = 317$  (note 41 is the URF [even though the FDA and CDC refuse to calculate the value](#)). See calculation [here](#).

Reference: John Su, [Safety update for COVID-19 vaccines: VAERS](#)

# What does the VAERS data show?

Are there more adverse events reported this year than all events ever combined (70+ vaccines, >30 years)?	Yes
Can you determine causality via Bradford-Hill?	Yes. Dose and temporal signals.
What is the underreporting factor (URF)?	41 <a href="#">calculated per CDC methodology</a>
Any chance that this is just “over reporting?”	No. Unrelated events reported at same rate. <a href="#">Fingerprint is different.</a>
How many Americans have died from these vaccines?	<a href="#">&gt; 150K</a>
How many Americans have been permanently disabled from these vaccines?	> 200K
How many kids 5-11 will we sacrifice for every kid saved?	<a href="#">117</a>

# What does the VAERS data show?

Is the only serious side effect myocarditis?	No. The CDC missed every serious adverse event. There are hundreds.
What are the four biggest categories?	Reproductive (esp female), immunological, cardiovascular, neurological.
Top causes of death?	Cardiac arrest, PE, intracranial hemorrhage.
Are the vaccines suitable some ages such as old w/comorbidities?	No. Kill > Saved.
Were any of the deaths in VAERS for kids 12-17 ever explained?	No
Is this the most dangerous vaccine ever invented?	Yes. 800X more deadly than smallpox.

# Vaccine mandates

COVID vaccine mandates are necessary because the protected need to be protected from the unprotected by forcing the unprotected to use the protection that didn't protect the protected.

## Do Not Give Up Your Rights ~ Dr. Julie Ponesse's Remarkable Speech

BY BROWNSTONE INSTITUTE NOVEMBER 3, 2021 PHILOSOPHY, PUBLIC HEALTH, SOCIETY 10 MINUTE READ

"I have no doubt that COVID-19 is the greatest threat to humanity we have ever faced; not because of a virus; ... but because of our response to it."

# Mitigation strategies

Are mandates required or desirable?	It's endemic. Everyone is going to get it. Mitigation is unnecessary. Mandates Vaccinated = unvaccinated.
Are vaccinated people more likely to be infected?	Yes according to UK government data, after a brief "honeymoon" period
Are masks suddenly effective against respiratory viruses?	No, not at all. The laws of physics haven't changed. <a href="#">47 studies show they don't work.</a>

# Mitigation strategies

Are masks harmful?	Yes, especially for kids. <a href="#">32 studies document the negative health effects</a> / Wearing <a href="#">masks can kill</a> kids.
Do <a href="#">222nm UV lights</a> work? <a href="#">Air filters with UV</a> ? Opening window?	Yes

NEWS

# 47 studies confirm ineffectiveness of masks for COVID and 32 more confirm their negative health effects

Young children being forced to wear masks is of particular concern.

Shutterstock

# Mitigation strategies

Are mitigation techniques needed? (lockdowns, social distancing, mask requirements, frequent testing, vaccinated-only restrictions)	No
Is vaccination with a non-sterilizing vaccine in the middle of a pandemic a good idea?	No. It's the worst thing you can do.
Can you get COVID from someone who has already had COVID?	No. SURPRISE!
Are rapid tests effective? PCR tests?	If symptoms, confirm with rapid test.
Can someone who is asymptomatic spread COVID?	Yes, but it's minimal risk.
Biggest risk?	Symptomatic super-spreaders
Is it necessary to segregate vaccinated from unvaccinated? Have separate policies? Identifying bracelets or arm bands?	Nonsensical. Not science-based.

A man in a blue patterned shirt stands at a wooden podium, facing a large, dimly lit church sanctuary filled with people. The scene is captured from behind the speaker, looking towards the audience.

How do we know masking,  
vaccination, testing are useless?  
Because people who ignore the rules  
don't do worse.

# Early treatments

What is the best way to get to zero COVID?	Early treatment
What have other countries used to get to zero COVID?	Early treatment
Do early treatments work? Vitamin D, FLV, IVM, HCQ, ...	Yes
What kind of risk reduction do early treatment cocktails provide in practice?	99.76%
Are there any risks of death or disability with early treatments?	No.
When were early treatments first available?	March 2020
Is recovered immunity better than vaccine immunity?	Yes. Much better.
What do all patients hospitalized for COVID have in common?	They didn't get treated early.
Does early treatment prevent long-haul COVID?	Nearly 100%.

# Censorship

Is censorship of dissenting views needed?	No
How should we stop misinformation?	Open debate
Why is the public only hearing one side of the narrative?	Truth must be suppressed
Is science being corrupted by politics?	Yes
How come doctors aren't prescribing fluvoxamine and it isn't added to practice guidelines?	NIH hasn't added it since would compete with vaccine

# Political rhetoric

Is the CDC trustable?	No
Will the CDC reveal their VAERS URF calculation?	Never. Too embarrassing.
Can you compute a risk-benefit analysis without knowing the URF?	No
Is vaccination the best way out?	No
Are unvaccinated people a danger to society?	No
Is this a “pandemic of the unvaccinated?”	No. >90% admissions are vaccinated in some areas.
Should the vaccines be halted?	Yes. Immediately.
Will anyone debate you on any of this?	Never. Crickets.

# Corruption

**Jeffrey M Pontious** 5 hr ago

Steve, I've been following this whole saga carefully ever since I saw you on Brett's

Dark Horse podcast with Robert Malone. You and Malone were the catalyst for seeing through all the lies. I haven't heard anything about the following, so thought I would see if you have. A good friend of mine works for one the largest telecommunications companies in the US. He had made the decision along with many colleagues at the company not to take the "vaccine." The company forced their hand and mandated the jab, so he reluctantly took it and felt pretty bad for several days. A colleague of his also relented, took the jab and sadly died within a couple of days. So, here is the interesting part that may be contributing to the undercounting of deaths. The family was told if they wanted the deceased's life insurance, then they had to remain quiet about the causal relationship between the jab and his death. Apparently, many if not all, policies deny claims relating to experimental medications. I've also heard some health insurance policies won't pay claims for vaccine-related adverse events. This would also keep non-death adverse event reporting suppressed. I just wondered if you have heard anything about the insurance aspect in your travels? Keep up the great work, Steve!

# SUMMARY

1. The vaccines kill more people than they save.
2. Vaccination makes cases worse (Harvard study)
3. The vaccinated are as dangerous as the unvaccinated.
4. Mask wearing is completely ineffective. It's never worked for respiratory viruses.
5. Mandates are nonsensical.
6. Vaccination with a non-sterilizing vaccine in the middle of a pandemic is dangerous; the worst possible solution.
7. If you get COVID, treat with an early treatment protocol.
8. Mitigation measures make sense only if a person is symptomatic.

Nobody will debate us because they can't defend their positions when faced with the facts. Nobody can rationalize the VAERS data. Nobody.

Early treatment is the only way to get to zero COVID. It is better on every metric. Fareed-Tyson protocol is 99.76% effective. No death or disability risk!

The one thing every hospitalized COVID patient has in common: they didn't use a proven early treatment protocol.
